Can We As A School Reduce The Amount Of Plastic We Use In Our Lunches?

Around the world, **plastic** has become a **major** problem in the ocean's food chain. Many creatures in the sea have ingested **plastic** somehow, leading them to either become extremely ill, or **die**. But we want to make a change. A change to save the marine life. **Can we save the ocean?**

The Competition

Premier League
Primary Stars

We are entering a competition called The Premier League Primary Stars. The Premier League and Sky have teamed up to **inspire** pupils across the country to **reduce** the amount of plastic they use and to set one **goal** that will be built upon.

<https://plprimarystars.com/competitions/skyoceanrescue>

Our Pledge

Our pledge is about trying to **avoid** using **clingfilm** in our lunches and to attempt to make all lunches **plastic free**.

We have already thought about how we are going to achieve this and the positive effects it will have on the **environment**. We are going to inform parents about what they can do to help.

Alternatives:

Use **beeswax wrap** instead of clingfilm:

Try to avoid single-use plastics:

Where To Find Us!

If you're interested in helping, you can find us in the dinner hall collecting **clingfilm**, **ziplock bags**, and any other single-use plastics in your lunchbox.

We've been around collecting **plastics** like clingfilm before this presentation was presented to you, and after today, we'll go around collecting **plastic** for 5 days, and hopefully, **there'll be less**.

Find Out More!

If you want to find out more, go to the [Shamblehurst website](#) in the newsletter and share with close friends and relatives.

**REMEMBER
THE MESSAGE**

Note:
We will get a visit
from this whale if
we win!

Thank you for listening year 6.

We hope you take on-board this message .

And remember try to reduce the plastic in your lunchbox .

Once again thank you!
