

# PLAYSTATION

PS4: Family Management and Parental Controls Under Parental Control/Family Management options, you can set controls in two areas: at the system level and at the user level.

**Settings Applied to all PS4™ System Users**  
**Set a System Restriction Passcode** Add an extra layer of security for your PS4™ System by setting a System Restriction Passcode. This prevents other users from logging into your account to make changes to parental controls or view unauthorized content.

To set a System Restriction Passcode, follow these steps:  
Step 1: Go to Settings > Parental Controls/Family Management  
Step 2: Select PS4™ System Restrictions. You will be prompted to enter the default passcode before changing to a new one.

**Prevent New User Creation and Guest Login** You can allow or disallow people to login as a guest or register as a new user on the PS4 system.

**Add a Web Filtering Service** This fee-based service, applies web filtering to internet browsing to block harmful websites from being accessed.

**Family Management Set Parental Controls for Individual Child Family Accounts**  
Step 1: Go to Settings > Parental Controls/Family Management  
Step 2: Select the child user you want to apply Parental Controls to.

**Default Parental Control Options Include Restrict Age Level for Games** All PlayStation®4 games are rated by the Entertainment Software Rating Board (ESRB) to help parents understand the content in a game. You can use these ratings in conjunction with the PS4™'s parental controls to restrict access to minors. The lower the level, the tighter the control.

**Restrict Blu-ray discs and DVD movies** You can set the age restriction for playing both Blu-ray and DVD discs individually. The lower the level (1-10), the tighter the control.

**Restrict Use of PlayStation® VR** You can allow or disallow options for use of PlayStation® VR. PlayStation® VR is not for use by children under 12 years.

**Restrict Use of Internet Browser** You can completely disable the PS4™ 's Internet Browser from launching.

**Restrict Communication with Other Players** You can disable child users from communicating via chat, messages, or displaying and entering comments for friend requests and game invitations.

**Restrict Viewing Content Created by Other Players** You can block videos, images, and text created by other users from view.

**Age Filtering for PlayStation® Store Content** Hide games and game features based on your child's age.

**Set Monthly Spending Limits** Set the monthly maximum amount of money a child user can spend in the PlayStation® Store.
